

## Bending Lever

Bending lever assists in the dressing of cables. The bending lever will help save time when using the larger cables. .

PRODUCT CODE: ZBLA (cables 10-16mm) PRODUCT CODE: ZBLB (cables 16-27mm)

All normal bending may be carried out without the use of tools, however, two sizes of bending levers are available for use with the larger diameter cables or when multiple bends are required - ZBLA (small) and ZBLB (large). These levers are specially designed to prevent cable damage during bending
